CURRENCY DETECTOR

CURRENCY DETECTOR

U.V. Currency Detector is a boon for businessman, Bankers, Traders, Travel Agents, Post Offices, Railway and all other Institutions where a log of currency transactions take place.

This units has one U.V. tube which helps in detecting all colour & chemical faults in counterfeit currency, cheques / demand drafts / visas, Passports, I.D. Cards, Credit Cards, Traveller's Cheques etc. in an efficient and effective way.

It also consists of one white tube giving day light effect in which all water marks and other discrepancies in the currency / cheque / drafts are easily detected. A magnified glass is provided for extra clarity enabling us to see all the defects clearly in the currency/cheques/draft. These defects are not visible to the naked eye.

U.V. Currency detector is an ultimate device in checking counterfeit currency, duplicate cheques and fake drafts. It is a compact well designed appliance which can easily be accommodated on an office table or can be kept hidden inside a bank counter. This instruments has a magnifying glass for proper magnification.
