**DT WITH WATER BATH &
DIGITAL TIME TOTALISER
(DOUBLE BASKET)**

The instrument is designed for accurate estimation of disintegration time of tablets/capsules. It is assembled in painted sheet metal cabinet with chemical resistant epoxy coating, fitted with superior quality constant speed sturdy motor. The guide discs and strokes are conforming to Pharmacopoeia Standards. (Body is made of M.S. Duly Powder Coated / S.S. 304 Body).

Specifications :

Displacement	: 55mm
RPM	: 30
Drive	: 1/8 HP
Heater	: 125 watt.
Power	: 230 V AC Single Phase

Optional:

- 1) Digital Time Totalizer
- 2) Water bath System Instead of Hot Plate with Thermostatics Temperature Controller.
- 3) Microprocessor based PID Controller (Only with Water bath model).
