

BOTTLE CAP TORQUE TESTER

CE

OT-BCT-337

“Optics Technology” torque tester is ideal for measuring cap tightening & loosening torque.

These units are designed for measuring application torque and removable torque of bottle caps. They are easy to use, lightweight and portable.

Product Details:

Operated on	: Electrical Power
Capacity	: 0-100 kg. cm / 10 nm
Bottle diameter	: upto 140 mm
Accuracy	: $\pm 0.5\%$
Display	: Digital
Application	: Industries
